TEACHING AND SERVICE ACTIVITY:

At the University of Mississippi, I have taught six different undergraduate accounting courses, and seven different graduate courses. I have chaired or co-chaired 10 dissertation committees, and served as a committee member on 20 additional dissertations. Because of my significant administrative responsibilities and experience, I have chaired many of the university's primary academic committees, including the Council of Academic Administrators, and directing our Strategic Planning efforts on two separate occasions, and chairing the NCAA Recertification Committee. I continue to chair the University's Distinguished Professor Selection Committee (an award I created while Provost) and serve on the Elsie M. Hood Outstanding Teacher Committee. In addition, I am pleased to report that during my time in leadership of the University of Mississippi, we were able to significantly increase our student enrollment, improve the academic qualifications of our incoming students, significantly improve retention and graduation rates, and increase the diversity of our student body and our faculty.

RESEARCH AND SCHOLARLY ACTIVITY:

In addition to serving as a full-time university administrator for much of my career, I have published just over 30 journal articles in scholarly and professional journals. According to Google Scholar, my work has been cited over 1,000 times and I currently hold an H-index of 15. My work has been published in *Accounting, Organizations and Society, Accounting Horizons,*
